Dear Hiring Manager,

I am writing to express my interest in the Android Developer position at your esteemed organization. As a final-year Computer Science Engineering student with a solid foundation in Android app development and backend integration, I am excited about the opportunity to contribute my skills and passion to your team.

During my internship at EISYSTEMS Services, I worked on developing and integrating front-end and back-end components for internal tools, enhancing usability and responsiveness. My experience includes building scalable Android applications using Java, Firebase, SQLite, and REST APIs. Notably, I developed NutriScan, an AI-powered nutrition analysis app, and a Personalized Learning App that combined RESTful APIs with local SQLite storage demonstrating my ability to build intelligent, user-centric solutions.

I am particularly drawn to your company because of its focus on innovative and impactful

technology. I am confident that my technical proficiency, problem-solving mindset, and eagerness to learn will make me a valuable asset to your development team.

Thank you for considering my application. I look forward to the possibility of discussing how my background and passion align with your company's goals. I am available at your convenience for an interview.

Warm regards,

Ajaj Ali
